

Accessibility Statement

This Accessibility Statement was last updated on September 7, 2025.

At **Green 2000 D.K – Agricultural Inputs & Know-How Ltd.**, we are committed to making our website (www.green-ltd.co.il) accessible to people with disabilities.

The Essence of an Accessible Website

An accessible website is one that enables people with disabilities to browse with the same level of efficiency and enjoyment as all other users, by making use of the system capabilities on which the site operates as well as assistive accessibility technologies.

Accessibility Adjustments on the Website

The accessibility adjustments on this website were carried out in accordance with Section C: Internet Services of the Equal Rights for Persons with Disabilities Regulations (Accessibility Adjustments to Services), 2013, and in accordance with the Israeli Standard **IS 5568**, which is based on the WCAG 2.0 guidelines. The site has been made accessible to **Level A**, subject to the changes and adaptations required by the Israeli Standard. The site content is compatible with assistive technologies such as screen readers and keyboard navigation.

Within this framework, we have:

- Run the accessibility wizard and corrected all issues identified.
- Defined the website language.
- Ensured logical content order across all site pages.
- Created clear heading structures, including semantic definitions, on all site pages.
- Added alternative text descriptions for images.
- Applied color combinations that meet required contrast ratios.
- Reduced disruptive motion and animations on the site.

Contact for Requests, Accessibility Issues, and Suggestions for Improvement

If you encounter any accessibility issues on our website or require assistance, you are welcome to contact our Accessibility Coordinator:

- **Accessibility Coordinator Name:** Dror
